## Infant Development Program

Provides support for children birth to 3 years of age who may have or are at risk of a delay in development.

### Program Information

This program is for families whose child has a developmental delay, at risk for one, or has a diagnosis which could lead to a developmental delay. Services are available in English, Cantonese and Mandarin.

Program services include:

- Home visits to encourage your child's progress through play-based activities
- Parent/caregiver support in your first language
- Assistance in understanding and responding to your child's needs
- Education in typical and atypical development, and disabilities
- Screening tools such as questionnaires and developmental assessments to determine your child's strengths and needs
- Written reports and records documenting your child's ongoing progress
- Toy and book-lending library
- Connections with other available services and community professionals
- Help including your child in community activities
- Support for families in advocating for their child

- PACE Family Program (therapeutic preschool)
- Therapy for children (Play, Art, and expressive Arts)

## Respite Care

Respite care providers give families a break by spending a few hours or an over-night period with their child with developmental disabilities.

### Program Information

Sometimes you just need a few hours to yourself, or even a night. The respite care program can do that for you, whether it's to get things done around the house, or if you just need to rest and renew.

### Get in Touch:

**Phone:** 604-279-8245

**Website:** <http://www.rscl.org/family-respite/>

## Supported Child Development

Helps families with children with developmental disabilities to access childcare.

### Program Information

Provides you with information, resources, and helps you access appropriate child care services. If your child needs additional supports when it comes to child care, they will be able to help you find preschool, day care, and out of school care.

Program Services Include:

- Planning
- Training
- Resources
- Hands on support

## Autism Information Services British Columbia (AIS BC) Get in Touch:

Provides information and supports for autism and related disorders to families, service providers, and community professionals across the province.

### Program Information

Autism Information Services British Columbia (AIS BC) is a provincial information centre for autism and related disorders that provides information and supports to families, service providers, and community professionals across the province. AIS BC can assist by providing information on assessment and diagnosis; best practice treatment options; learning about and navigating the Autism Funding Program; paperwork; finding and hiring professionals; identifying and accessing provincial and local-level community supports and services; and managing transitions across infancy, preschool, school-age and emerging adulthood.
